FREE WORKSHEET

Take Home Pay Worksheet

From gross salary to what lands in your bank account in Germany, line by line. 2026 rules, single, tax class 1, no church tax, statutory health insurance. The middle column is the 70,000 euro example from my video. Fill the right column with your own numbers.

1 Social insurance: your half

LINE	RATE AND CEILING, 2026	EXAMPLE, EUR/YR	YOUR NUMBER
Gross salary per year	What your contract says	**70,000**	
Pension insurance Rentenversicherung	9.3% of gross, up to 101,400	**6,510**	
Unemployment insurance Arbeitslosenversicherung	1.3% of gross, up to 101,400	**910**	
Health insurance Krankenversicherung	7.3% + half of your fund's extra charge (official average 2.9%, so 1.45%) = 8.75%, up to 69,750	**6,103**	
Long term care Pflegeversicherung	1.8%, plus 0.6% if over 23 with no children = 2.4% (most states), up to 69,750	**1,674**	
A. Social insurance per year	**Add the four lines**	**15,197**	

2 Taxable income

LINE	RULE	EXAMPLE, EUR/YR	YOUR NUMBER
minus work expense allowance	1,230 flat (more if you can prove higher costs)	**1,230**	
minus special expenses allowance	36 flat	**36**	
minus deductible contributions	My simplification: pension, unemployment, care in full + 96% of health	**14,953**	
B. Taxable income	**Gross minus the three lines above, rounded down to whole euros**	**53,781**	

3 Income tax: the 2026 formula for a single person

```
B up to 12,348: tax = 0
B 12,349 to 17,799: y = (B − 12,348) / 10,000, tax = (914.51 × y + 1,400) × y
B 17,800 to 69,878: z = (B − 17,799) / 10,000, tax = (173.10 × z + 2,397) × z + 1,034.87
B from 69,879: tax = 0.42 × B − 11,135.63
Round down to whole euros. Source: § 32a EStG, 2026.
```

C. Income tax per year	**11,900**	
Soli 0 unless C is above 20,350	**0**	
Church tax 8% or 9% of C, only if you pay it	**–**	

4 What lands in your bank account

LINE	CALCULATION	EXAMPLE	YOUR NUMBER
Net per year	Gross − A − C (− Soli, church tax)	**42,903**	
NET PER MONTH	**Net per year / 12**	**3,575**	
Share of gross that reaches you	Net per year / gross	**61%**	

Not in this worksheet

- Other tax classes (married couples: the class only changes the monthly withholding, the final bill is settled in your tax return)
- Children (no extra care insurance charge), private health insurance, a company pension, benefits in kind
- Small extra levies on the employer side. The employer pays its own half of social insurance on top of your gross.

Check your result

Run your number through the official government calculator, and ask a Steuerberater before you decide anything on a job offer. Ask the employer for the gross salary and the monthly net, in writing.

General information and an illustrative calculation, not tax or financial advice. Rates, ceilings and the tax formula are for 2026; my own simplified calculation, so your payslip will differ. Example: single, tax class 1, no children, no church tax, statutory health insurance with the average extra charge. thepriceofgermany.com
